

THE EXECUTION ALGORITHM
INDEPENDENT WORK OF THE STUDENT
at the Department of Surgical Dentistry and Maxillofacial Surgery

1. The independent work of students is to independently study the issues provided for by the work program and included in the «**Thematic plan of independent work of the student**» in the discipline for the current semester.
2. According to the results of the study of the material, the student individually performs the task (element): it is prepared for a separate presentation for one or more issues for independent study (depending on the number of hours allocated for the independent work of the student in the current semester).
3. **The number of slides in the presentation at the rate of 3-5 semantic slides for 1 hour** of the topic of independent work. The first slide indicates the name of the work, the theme of independent work from the thematic plan, the name and number of the student group who completed the work.
4. The work performed is evaluated by the teacher in a practical lesson according to the 100-point system when monitoring the implementation of independent work. **The minimum score at which the work can be credited is 61 points. With a lower score, the student is invited to re-study the topic independently.**
5. The presentation received a positive assessment (more than 61 points) is transferred to the PDF format, the presentation file is called «FULL CUSTOMS_COURSE_GROUP_WORK_ No. ___» and **is posted on the educational portal of VolgSMU** in the corresponding discipline, in the «Independent Work» section.
6. **The form of the report** on the implementation of independent work **is a screenshot of the page with the work uploaded to the portal**, the student prints it and passes it to the teacher in the last lesson of the cycle.

Обсуждено на заседании кафедры хирургической стоматологии и ЧЛХ, протокол №1 от «30» августа 2024 г.
