8.	Control of knowledge, skills and abilities in thematic blocks from 1 to 7	2
9.	Cash flow accounting at the pharmacy. Settlement operations.	2
10.	Accounting for labor and wages.	2
11.	Inventory of inventory items.	2
12.	The basic concepts of the legislation of the Russian Federation on taxes.	2
13.	Types of taxes paid by pharmacy organizations under the general taxation regime.	2
14.	Types of taxes paid by pharmacy organizations under special taxation regimes.	2
15.	Deriving the results of economic and financial activities	2
16.	Accounting statements	2
17.	Control of knowledge, skills, and skills in thematic blocks from 9 to 17	2
18.	Control semester testing	2
	Total modulo 2	36
	Module 3. Fundamentals of pharmacy economics	
1.	The economic environment of the pharmacy organization.	2
2.	The theoretical foundations of the economic analysis of the pharmacy organization	2
3.	Theoretical foundations of planning the activities of a pharmacy organization	2
4.	The effect of the main economic laws on the pharmaceutical market. The Law of Demand	2
5.	The effect of the main economic laws on the pharmaceutical market. The law of supply.	2
6.	Fundamentals of pricing in the pharmaceutical market	2
7.	Control of knowledge, skills and abilities in thematic blocks from 1 to 6	2
8.	Retail turnover of a pharmacy organization	2
9.	Pharmacy costs	2
10.	Preparation of cost estimates by item	2
11.	Profit of the pharmacy organization	2
12.	Control of knowledge, skills, and skills in thematic blocks from 8 to 11	2
13.	The material resources of a pharmacy organization: fixed and working capital	2
14.	Commodity resources of a pharmacy organization	2
15.	Labor and financial resources of a pharmacy organization	2
L		

16.	Control of knowledge, skills, and skills in thematic blocks from 13 to 15	2			
17.	Control semester testing	2			
	Total modulo 3	34			
Mo	Module 4. Theory and practice of pharmaceutical management. Information support for pharmaceutical business				
1.	Management methodology. Models and methods in pharmaceutical management	2			
2.	Designing organizational management structures in pharmaceutical organizations, coordinating activities based on delegation of authority	2			
3.	The main provisions of labor legislation	2			
4.	Human resource management in pharmacy organizations	2			
5.	Modeling of interpersonal communications. Business Game	2			
6.	Methods of managerial decision-making in pharmacy.	2			
7.	Organization of office work in pharmacy organizations	2			
8.	Assessment of the socio-psychological climate in the team.	2			
9.	Conflicts, conflict management methods	2			
10.	Methods, techniques and styles of managing the workforce in pharmacy organizations	2			
11.	Control of knowledge, skills, and skills on topics from 1 to 10	2			
12.	Consumer protection system	2			
13.	Preparation of the founding documents of the pharmacy and documents for li- censing pharmaceutical activities	2			
14.	Development of a pharmacy business plan	2			
15.	Pharmaceutical marketing research and market segmentation of medicines and pharmacy products	2			
16.	"Practical management". Business Game	2			
17.	Control of knowledge, skills, and skills on topics from 12 to 16	2			
18.	Control semester testing.	2			
	Total modulo 4	36			
	Total	144			

Considered at the meeting of the Department of Organization of Pharmaceutical Business, Pharmaceutical Technology and Biotechnology «29» August 2024, Protocol No. 1 Head of the Department,

Doctor of Pharmacy
