

## TASK EUTHANASIA

Adeli Mahsa

Group 26

Euthanasia is a highly debated and controversial topic in my state. While some people believe in the right to die with dignity and support euthanasia as a compassionate option for those suffering from terminal illness, others view it as morally wrong and fear the potential for abuse. Currently euthanasia is illegal in my state, but there have been ongoing discussion and efforts to legalize it under certain circumstances. The medical community is divided on the issue, with some healthcare professionals supporting euthanasia as a way to alleviate suffering, while others are concerned about the ethical implications and potential consequences. Overall the attitude towards euthanasia in my state is complex and multifaceted, with strong opinions on both sides of the debate.
